Course: CS253

Mentor TA: *Utkarsh Agarwal*

Date: April 3,2026

1 Overview

1.1 Purpose

This document provides clear, step by step instructions for using the Qwik digital canteen platform. It covers all features available to customers, canteen merchants, and administrators, and includes troubleshooting guidance to help users resolve common issues independently.

1.2 Product Scope

Qwik is a web based food ordering and canteen management system built for the IIT Kanpur campus. It allows students and faculty to browse canteen menus, place orders, make online payments via Stripe, track order status in real time, and submit party or table reservation requests. Canteen merchants get a dedicated dashboard to manage their menu, accept and process orders, and handle reservation requests. A platform administrator has system wide controls to approve new merchants and monitor overall activity.

1.3 Intended Audience

Qwik is designed for three groups of users:

- **Customers:** Students, faculty, and staff on the IITK campus who want to order food or make reservations.
- **Merchants:** Canteen owners and their staff who need to manage orders, menus, and reservation requests.
- **Administrators:** Platform administrators responsible for approving new merchant accounts and monitoring system health.

1.4 Software Requirements

Qwik is a responsive web application that runs in any modern browser. No installation is required.

- Google Chrome (recommended), Mozilla Firefox, Safari, or Microsoft Edge latest versions
- A stable internet connection
- A valid IITK email address (for students) or any email address (for merchants)
- A 10 digit Indian mobile phone number

1.5 User Roles at a Glance

The platform supports three roles. When you register, you choose either Customer or Merchant. Administrators are provisioned separately and log in through a dedicated admin portal.

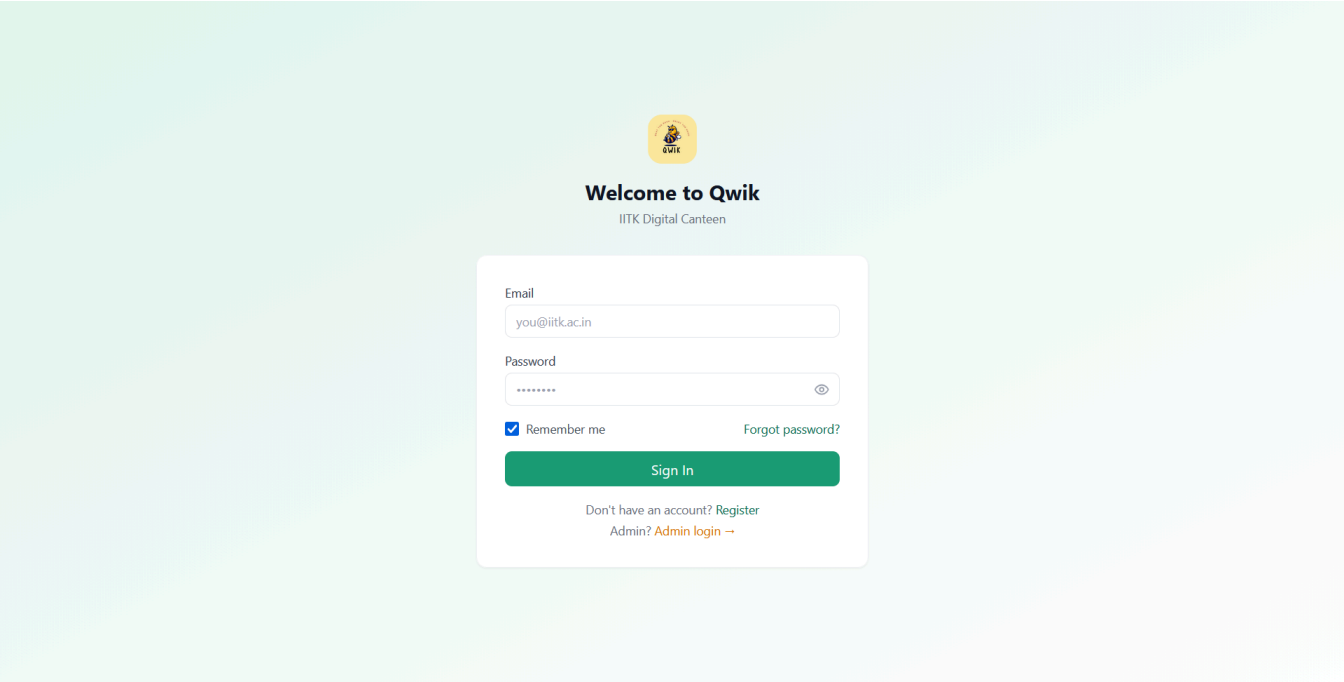
- **Customer:** Browse menus, place orders, pay online, track delivery, make party/table reservations, and rate orders.
- **Merchant:** Manage canteen menus, accept or reject orders, update order status, and handle reservation requests.
- **Administrator:** Approve or reject new merchant applications, manage canteens and users, and view platform statistics.

2 Guide for Customers

2.1 Login

Navigate to the Qwik login page in your browser. Enter your registered email address and password, then click Sign In.

- If you check Remember me, your session will persist across browser restarts.
- If your password is incorrect, a prompt will appear with a link to reset it.
- If your account has not been verified yet, you will see an option to request a new OTP.
- If your account has been blocked by the admin, a message will appear : contact support.



Admin accounts cannot log in through the standard login page. Admins must use the separate Admin Login link shown at the bottom of the login form.

2.2 Signup / Registration

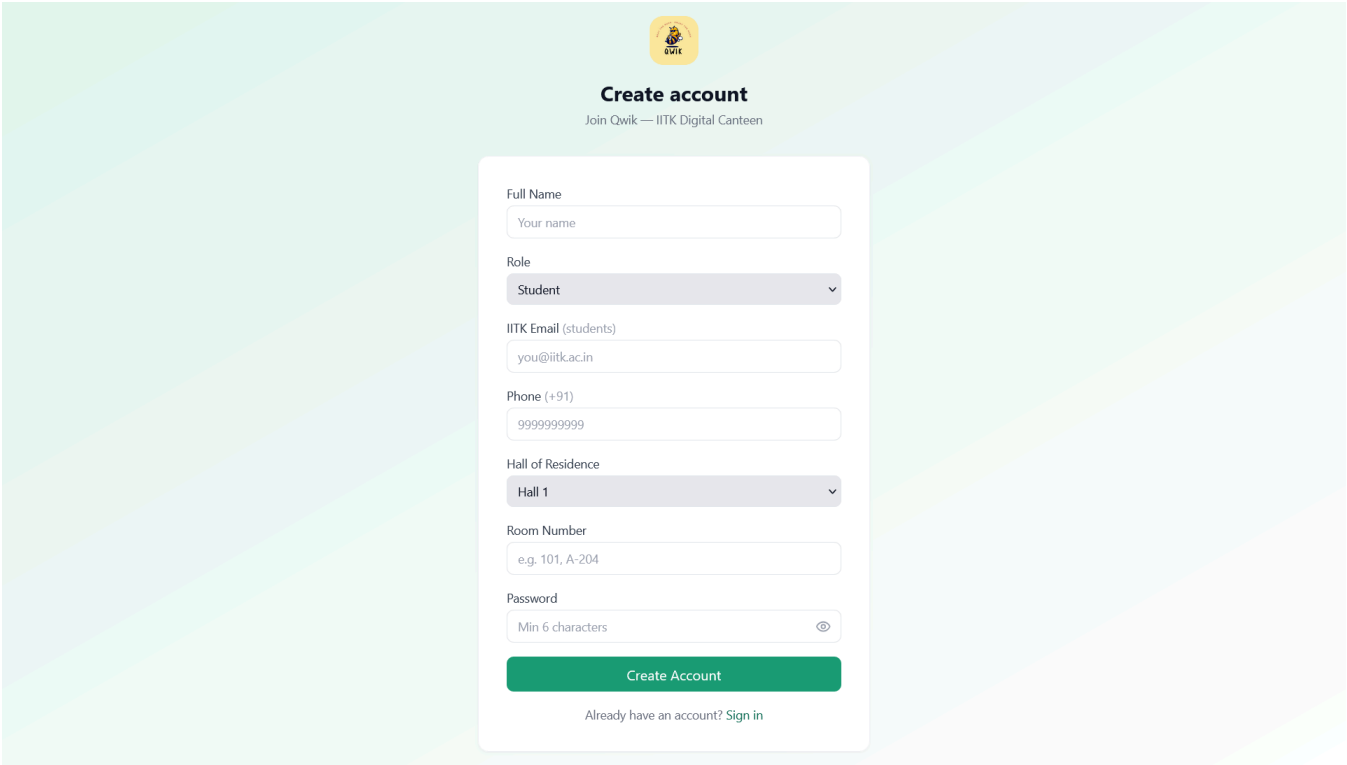
Click Register on the login page or the Register link at the bottom of the login form. You will be taken through a two step registration process.

Step 1 — Fill in your details

Complete the registration form with the following information:

- **Full Name:** Your full name as it should appear on orders.
- **Role:** Select Student (the default for customer accounts).
- **IITK Email:** Your IITK email address (e.g. yourname@iitk.ac.in). This is used for OTP verification and communication.
- **Phone Number:** Your 10 digit mobile number (without country code). This is required and must be exactly 10 digits.
- **Hall of Residence:** Select the hall where you reside.
- **Room Number:** Your room number in the selected hall (e.g. 101 or A204).

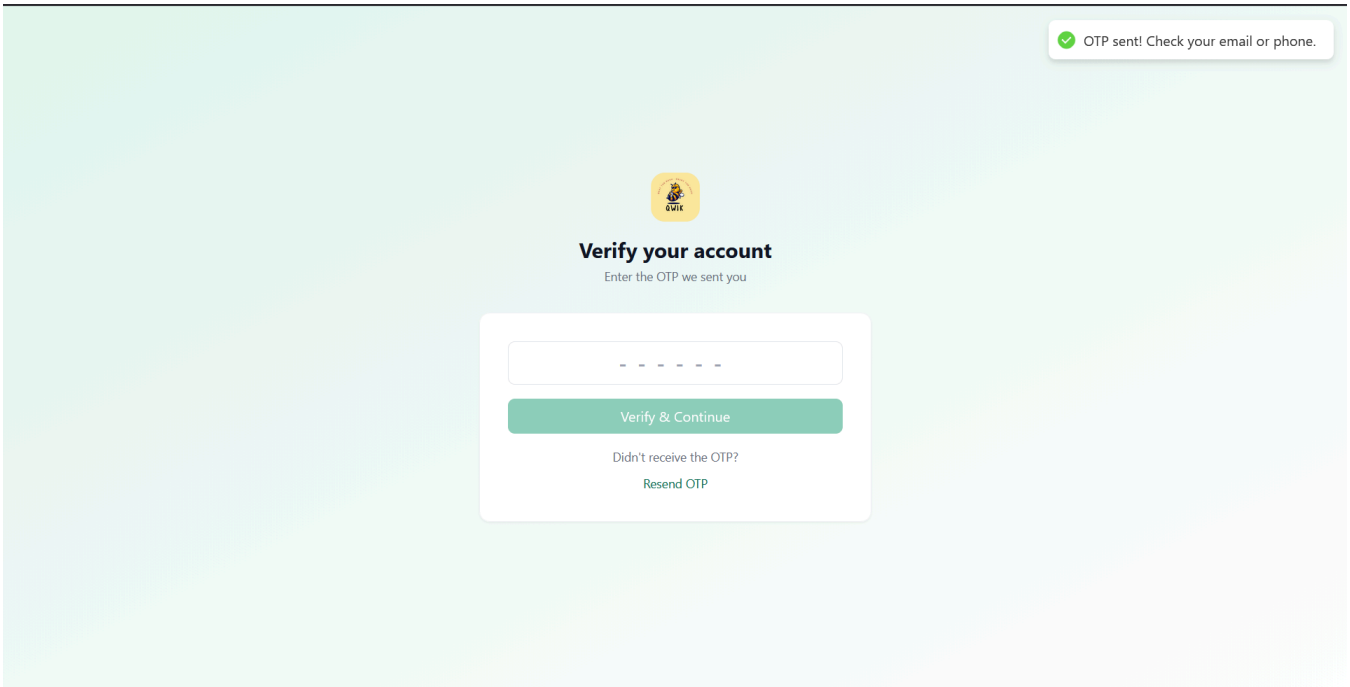
- **Password:** Choose a password with at least 6 characters.



Step 2 — OTP Verification

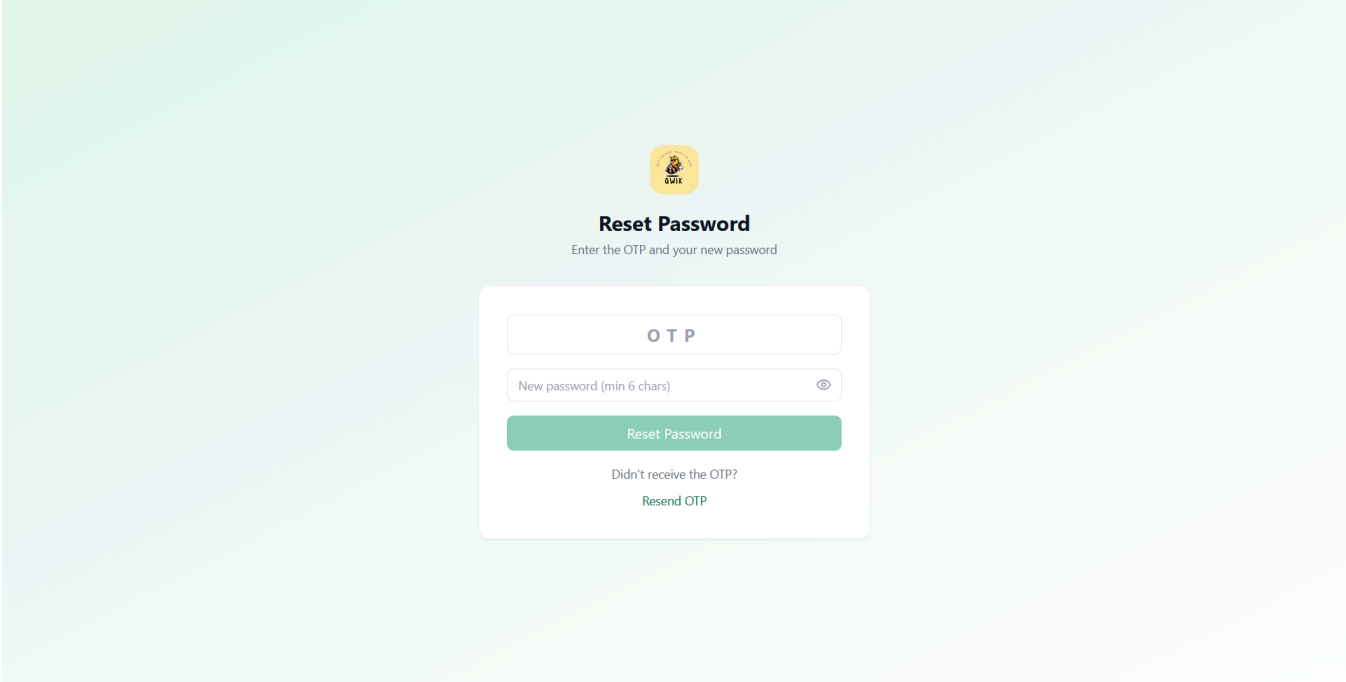
After submitting the form, a 6 digit OTP will be sent to your registered email. Enter it in the verification box and click Verify & Continue.

- The OTP expires after a short window. If it expires, click Resend OTP. A 30 second cooldown applies between resend attempts.
- Once verified, you will be automatically logged in and taken to the canteen selection screen.



2.3 Forgot Password

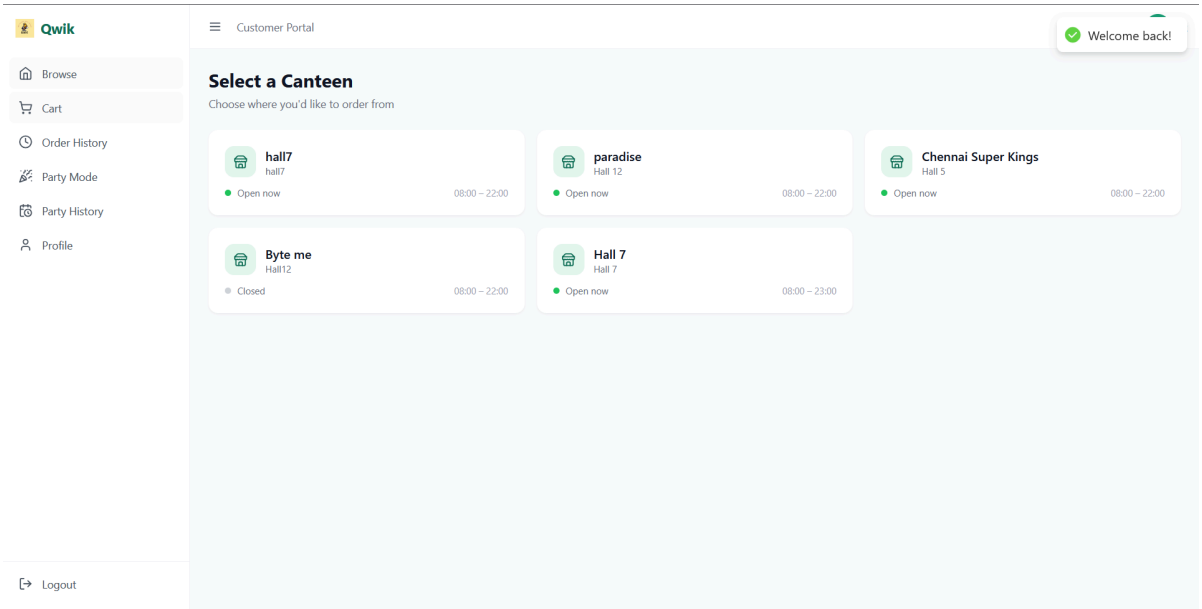
If you forget your password, click Forgot password? on the login page. Enter your registered email address and click Submit. You will receive a link or OTP to reset your password.



2.4 Hall / Canteen Selection

After logging in, you are taken to the canteen selection screen before seeing the menu. This page lists all available campus canteens with their name, hall location, open/closed status, and operating hours.

- Click any canteen card to select it and browse its menu.
- You can return to this screen at any time by clicking Change canteen in the top right corner of the menu page.



Your cart is linked to a single canteen. If you add items from a different canteen, you will be asked whether you want to clear your current cart.

2.5 Home / Menu Page

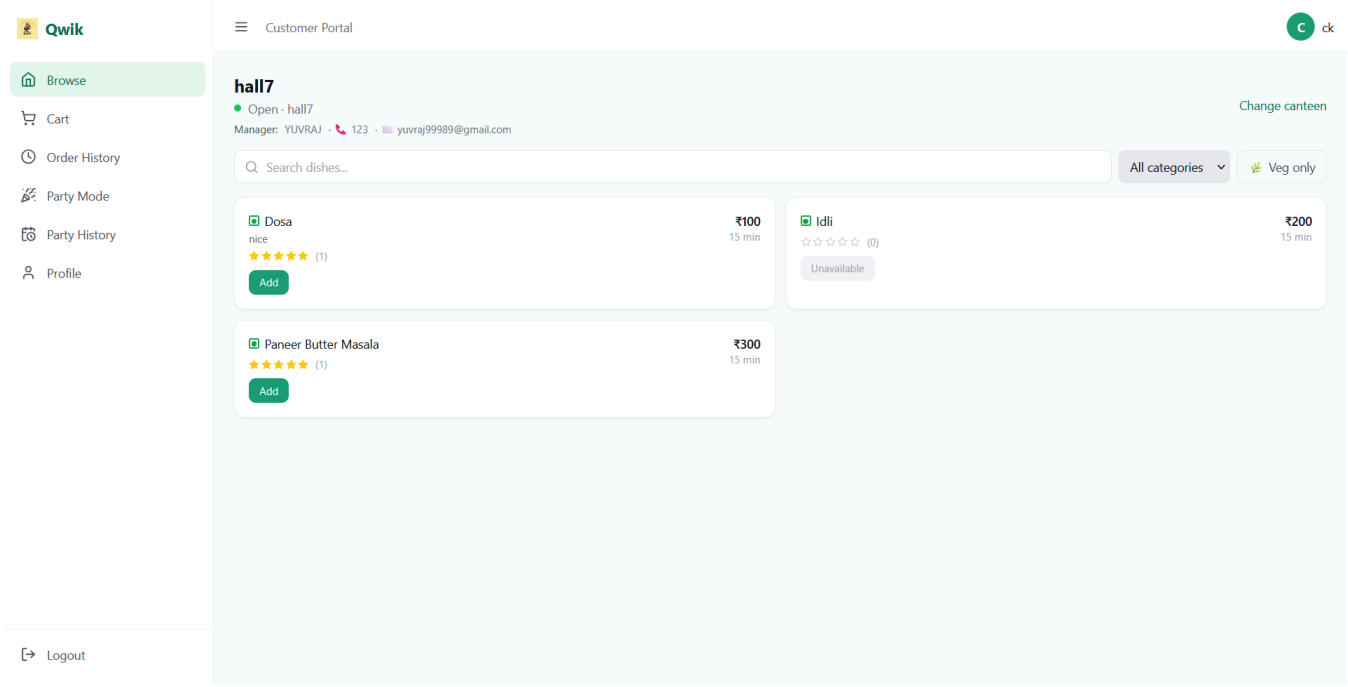
Once you select a canteen, you are taken to its menu. The page shows the canteen name, its current open/closed status, and the manager's contact details.

Searching and Filtering

- Use the search bar at the top to find dishes by name.
- Use the category dropdown to filter by meal type (e.g. meals, snacks, beverages).
- Toggle Veg only to show only vegetarian items.

Adding Items to Cart

Click the + (Add) button on any food card to add that item to your cart. A confirmation toast will appear. If you already have items from a different canteen in your cart, a confirmation dialog will appear asking whether you want to clear the existing cart.

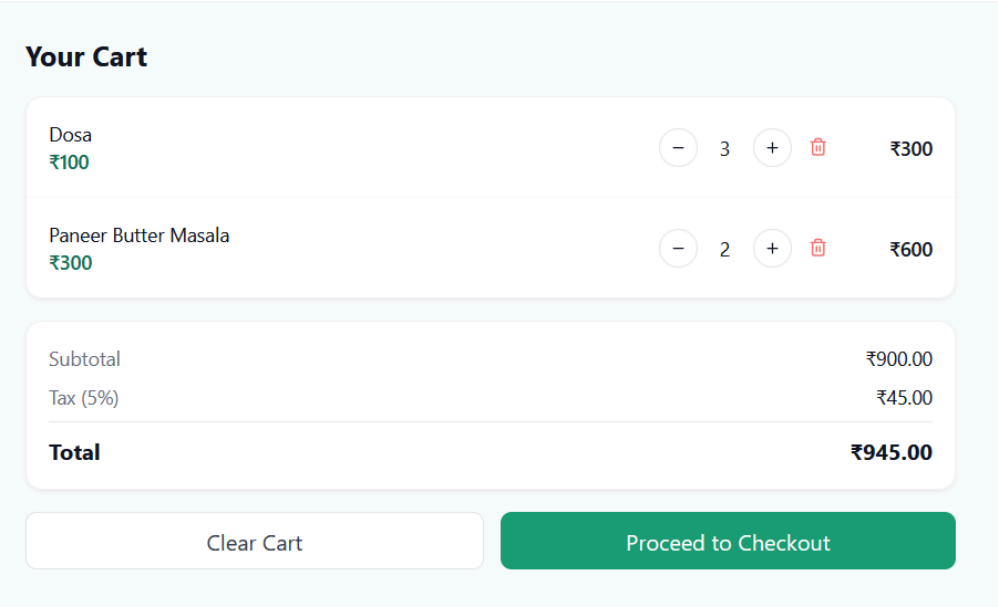


2.6 Cart & Checkout

Tap the cart icon to open your cart. The cart shows a list of all added items with their quantities, and a cost summary.

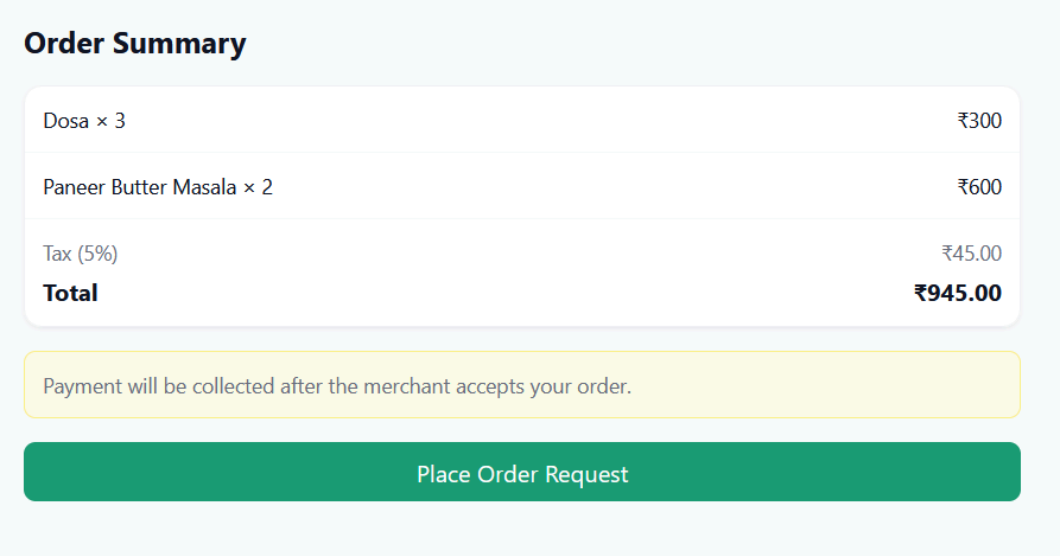
Adjusting Your Order

- Increase or decrease item quantity using the +/ buttons next to each item.
- Remove an item entirely by reducing its quantity to zero.



Checkout

When you are ready to place your order, click Proceed to Checkout at the bottom of the cart. You will be taken to the Stripe powered payment screen where you can enter your card details securely. Click Pay ₹[amount] to confirm payment.

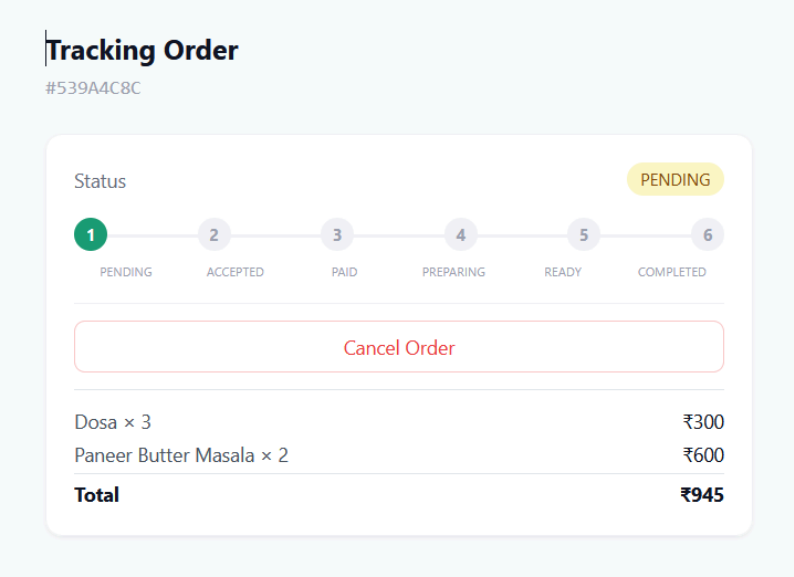


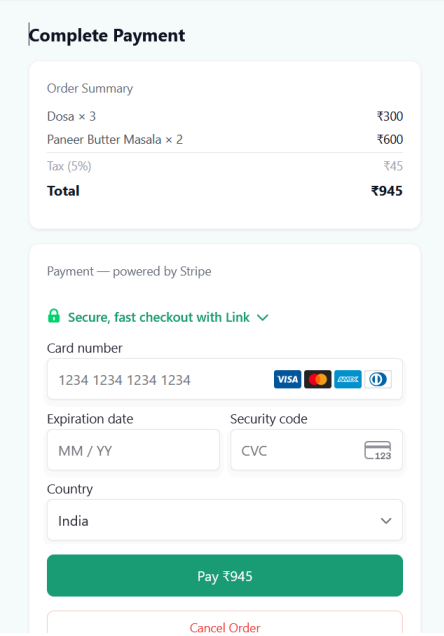
Do not close or refresh the browser during payment processing. This may cause your payment to fail or be duplicated.

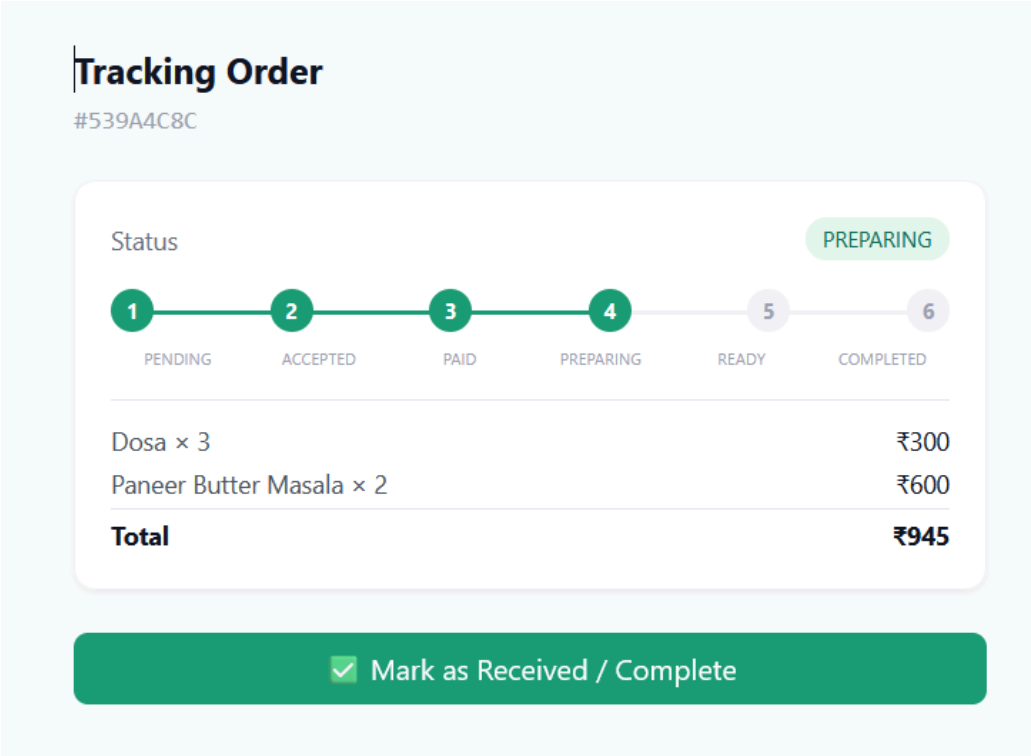
2.7 Order Tracking

After payment is confirmed, you are automatically redirected to the order tracking page. This page shows the real time status of your order. Possible statuses are:

- **PENDING:** Your order has been received and is waiting for the merchant to accept it.
- **ACCEPTED / PREPARING:** The merchant has accepted your order and is working on it.
- **READY:** Your order is packed and waiting to be picked up or delivered.
- **COMPLETED:** Your order has been delivered or picked up successfully.
- **REJECTED:** The merchant could not fulfil your order. A note from the merchant may be shown.

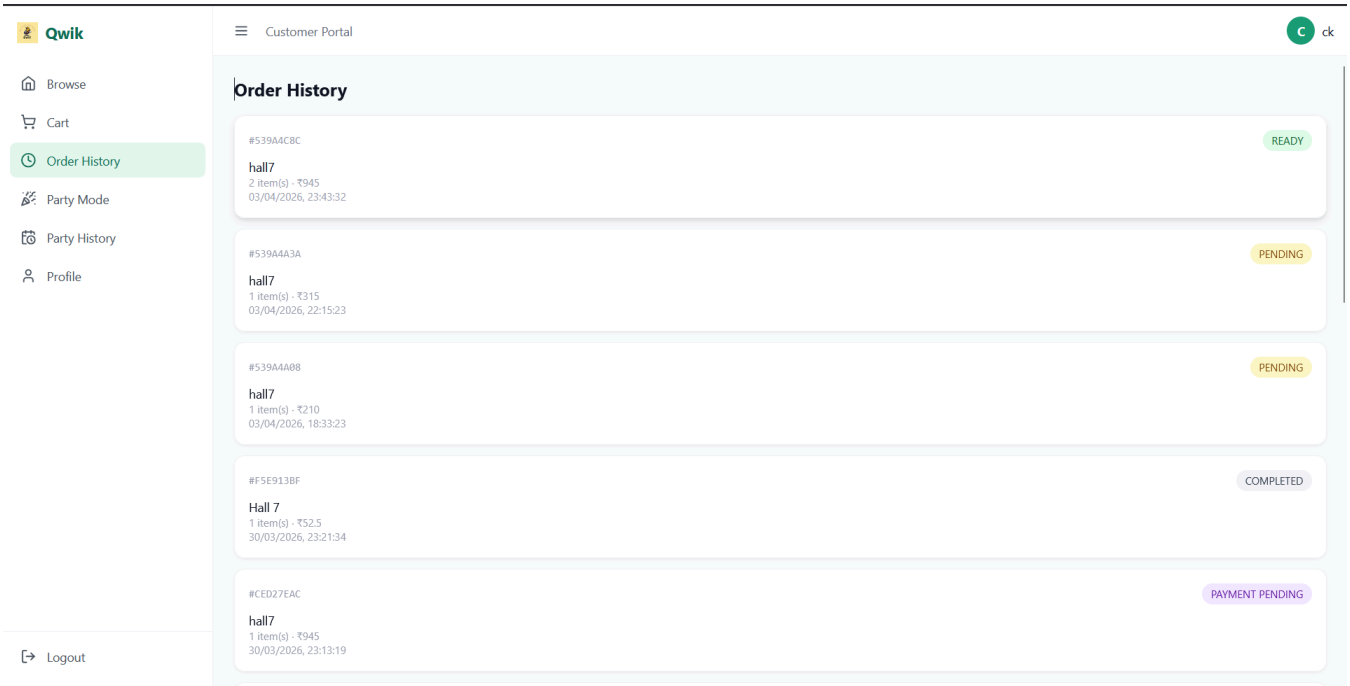






2.8 Order History

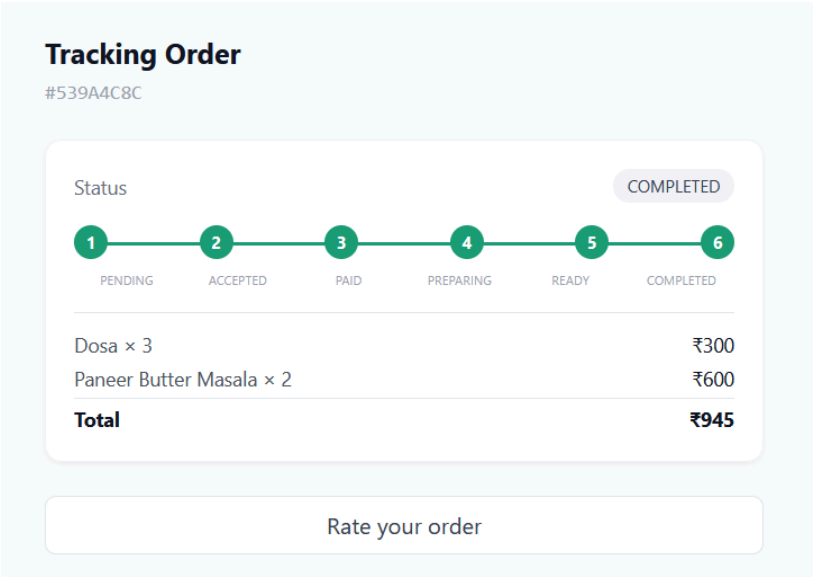
You can view all your past orders by going to the sidebar menu and selecting Order History. Each order shows the items ordered, total amount, date placed, and final status.

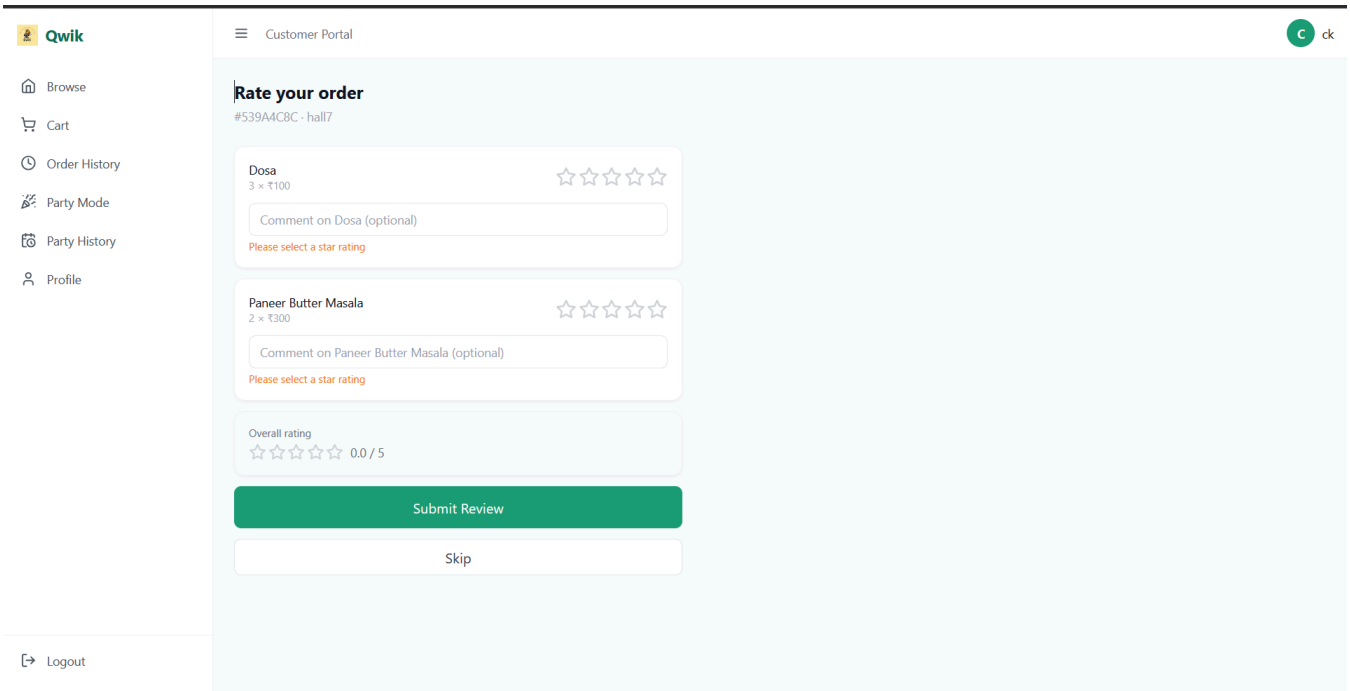


2.9 Rating and Reviews

After an order is marked COMPLETED, you will be prompted (or you can navigate to the review page directly) to rate each item in your order. Give a star rating from 1 to 5 and optionally leave a comment. Click Submit Review to save.

- Each item in the order is rated individually.
- You can only rate an order once. Once submitted, the review cannot be edited.





2.10 Party Mode — Table Reservations and Cake Pre Orders

Click Party Mode in the sidebar to access reservation features. There are two sub features:

Table Reservation

Reserve a table at a canteen for a group gathering or celebration. Fill in:

- **Canteen:** Select the canteen where you want to reserve a table.
- **Date:** Choose the date of your reservation.
- **Time:** Enter the desired arrival time.
- **Number of people:** Enter how many people will attend.

Click Send Request. The canteen merchant will review and approve or reject your request.

Cake Pre Order

Pre order a custom cake from a canteen. Fill in:

- **Cake Details:** Flavour, message on cake, and cake size (500g / 1kg / 1.5kg / 2kg).
- **Date & Time:** Date and time when you want to pick up or receive the cake.

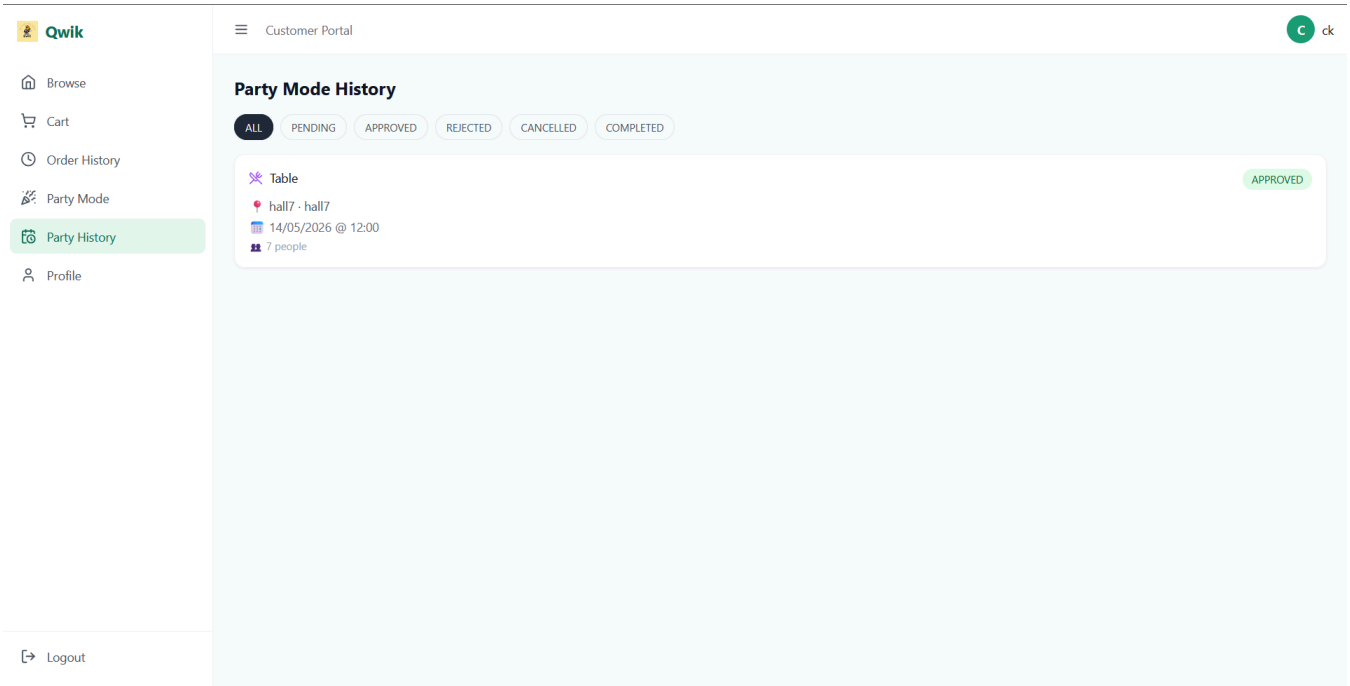
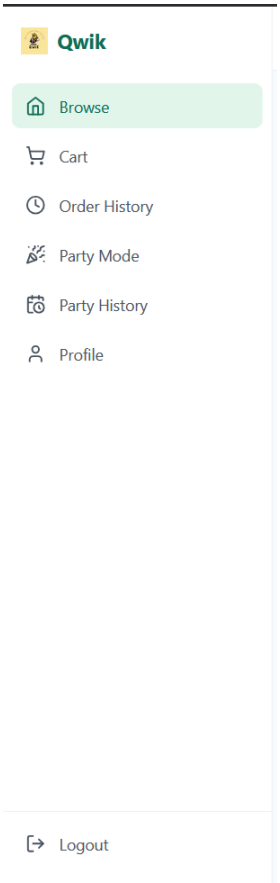
2.11 Party History

View your past reservation and cake pre order requests — including their status (PENDING, APPROVED, REJECTED, CANCELLED) — by navigating to Party History in the sidebar.



2.12 Navigation Sidebar



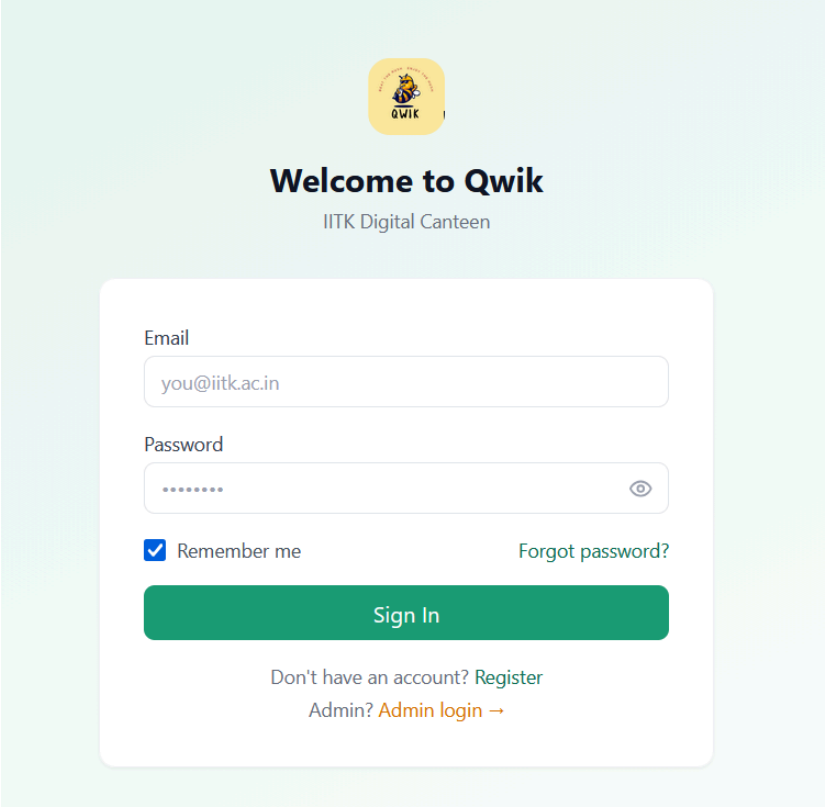
The sidebar (accessible via the hamburger icon on the left) provides quick links to all customer pages:

- **Canteens:** Returns to the canteen selection screen.
- **Menu / Home:** Opens the food menu of the currently selected canteen.
- **Order History:** Shows all your past orders.
- **Party Mode:** Opens the table reservation and cake pre order screen.
- **Party History:** Shows the status of all your past reservation requests.
- **Log Out:** Logs you out of the platform.

3 Guide for Canteen Merchants

3.1 Login

Navigate to the Qwik login page and enter your registered email and password. Note that merchant accounts require admin approval before you can log in for the first time. If your account has been verified but not yet approved, you will see a Pending Admin Approval notice.

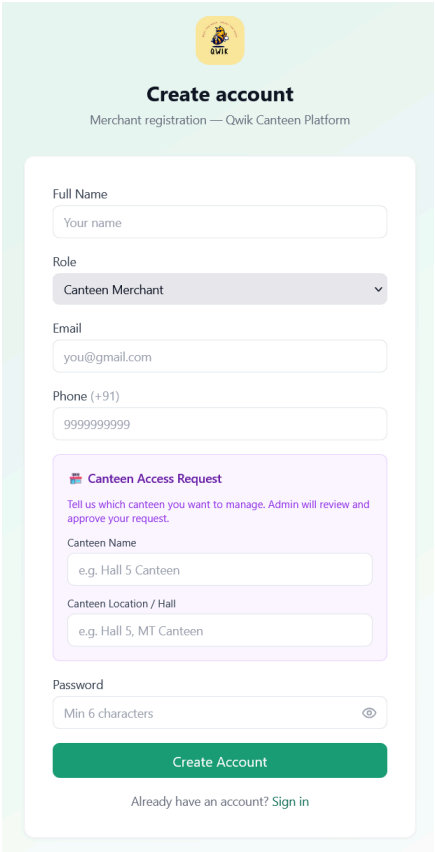


3.2 Merchant Registration

Click Register on the login page, then change the Role dropdown from Student to Canteen Merchant. You will see additional fields appear:

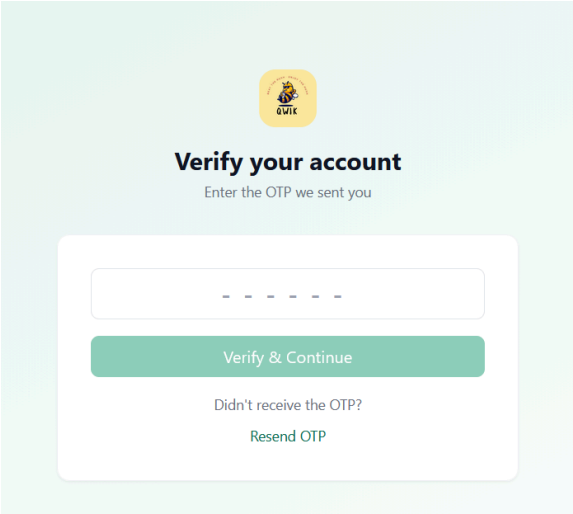
Step 1 — Registration Form

- **Full Name:** Your full name.
- **Email:** Your personal or business email (used for OTP verification and login).
- **Phone:** Your 10 digit phone number.
- **Canteen Name:** The name of the canteen you wish to manage (e.g. Hall 5 Canteen).
- **Canteen Location / Hall:** The hall or building where the canteen is located.
- **Password:** Choose a secure password (minimum 6 characters).



Step 2 — OTP Verification

After submitting, an OTP will be sent to your email. Enter it to verify your account. Once verified, your registration request is submitted to the platform administrator for approval. You will not be able to log in until the admin approves your canteen.

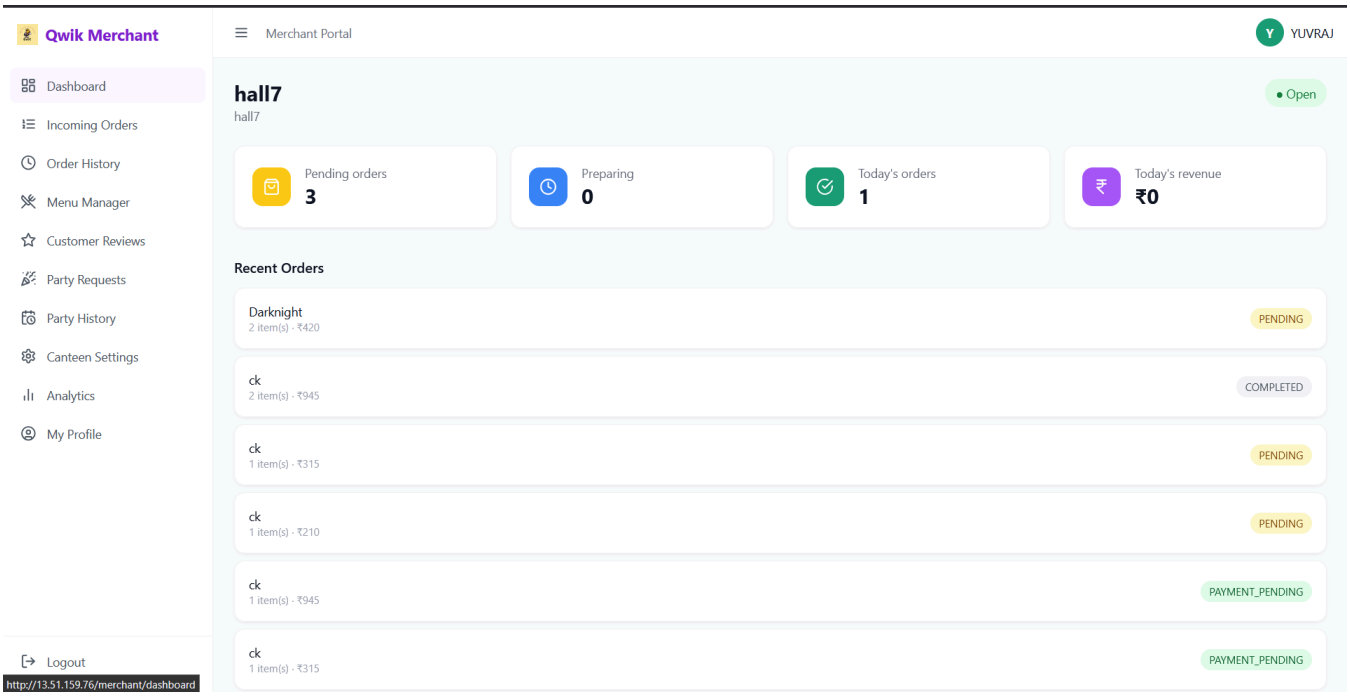


Check back later or wait for an email notification once your account is approved.

3.3 Dashboard

After login, you land on the Merchant Dashboard. This page provides a quick summary of your canteen's activity for the day, including:

- **Pending Orders:** The number of pending orders waiting for your action.
- **Preparing:** Orders currently being prepared in the kitchen.
- **Today's Revenue:** Total revenue from orders placed today.
- **Canteen Status:** Shows whether your canteen is currently open or closed.



3.4 Managing Orders

Click incoming orders in the sidebar to open the incoming orders page. This page auto refreshes every 5 seconds to show new incoming orders.

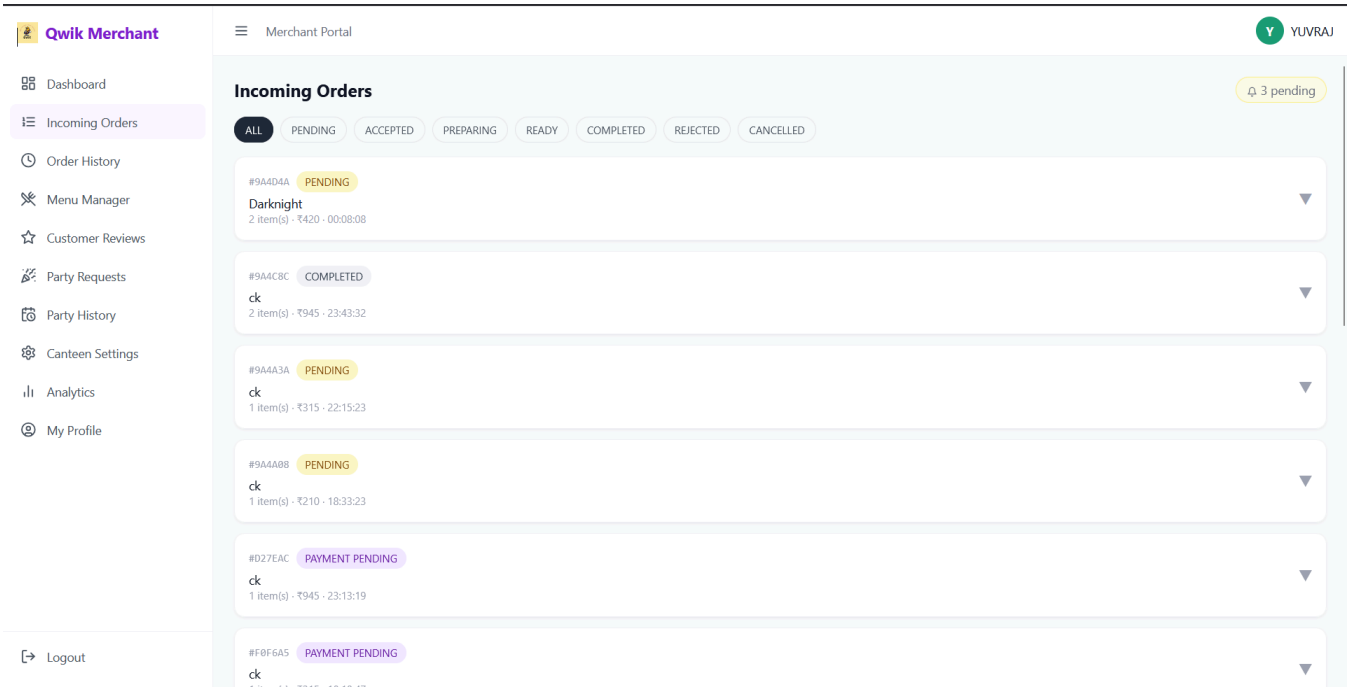
Filtering Orders

Use the filter buttons at the top to view orders by status: ALL, PENDING, ACCEPTED, PREPARING, READY, COMPLETED, REJECTED, or CANCELLED.

Order Actions

Click on an order to expand it. Depending on the order's current status, you will see different action buttons:

- **PENDING orders:** Review the list of items. Optionally mark specific items as unavailable (for partial acceptance). Click Accept Order or Accept (Partial) to confirm.
- **ACCEPTED / PREPARING orders:** Click Mark as Ready when the order has been prepared.
- **READY orders:** Click Complete Order once the customer has picked up or received their order.
- **PENDING orders — rejection:** Click Reject Order to decline, optionally add a note explaining why.



Rejected orders are visible to the customer with any note you add. Be clear and professional.

3.5 Menu Management

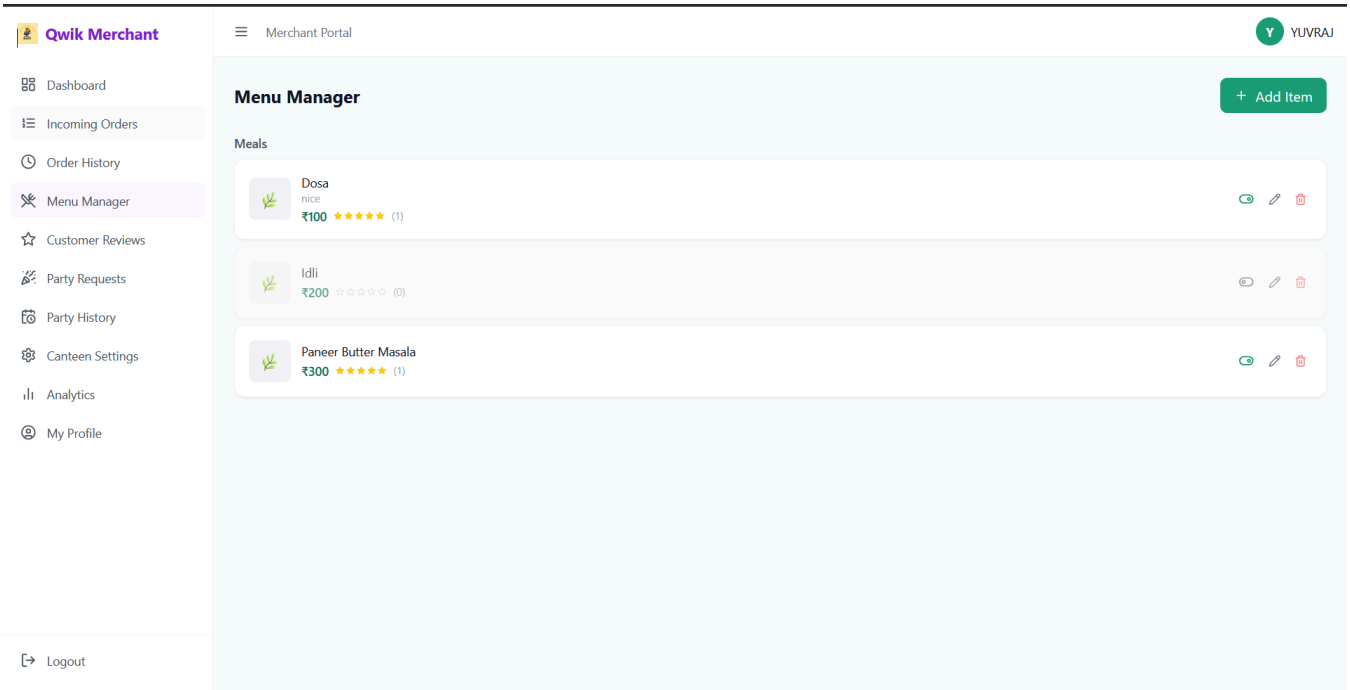
Click Menu Manager in the sidebar. This page shows all currently listed items in your canteen's menu, organised by category (Starters, Meals, Desserts, Beverages, etc.).

Adding a New Item

Click + Add New Item in the top right. Fill in the required fields:

- **Name:** Name of the dish.
- **Description:** A short description of the dish.
- **Price (₹):** The price in Indian Rupees.
- **Category:** The menu category (meals, snacks, beverages, etc.).
- **Veg / Non Veg:** Whether the dish is vegetarian or non vegetarian.
- **Prep Time:** Estimated preparation time in minutes.

Click Save to add the item to your menu.



Editing an Existing Item

Click the edit (pencil) icon on any item card. Update the fields as needed and click Save.

Deleting an Item

Click the delete (trash) icon on an item card and confirm the deletion. Deleted items are removed from the customer facing menu immediately.

Toggling Item Availability

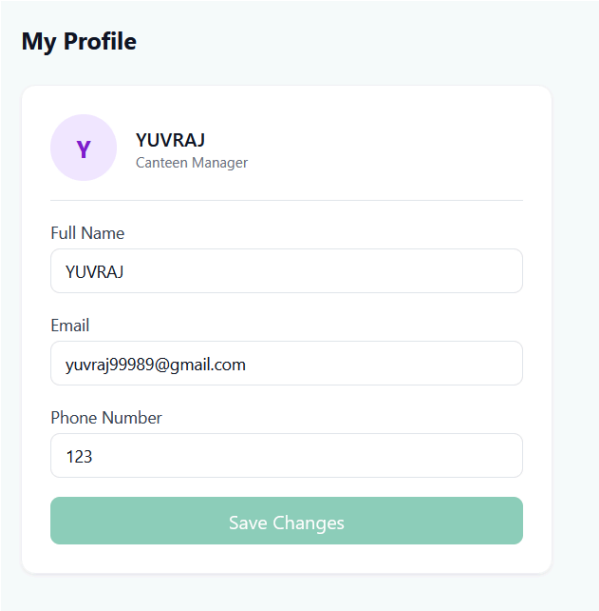
Use the toggle switch on each item card to mark it as available or unavailable. Unavailable items are hidden from customers until you re enable them.

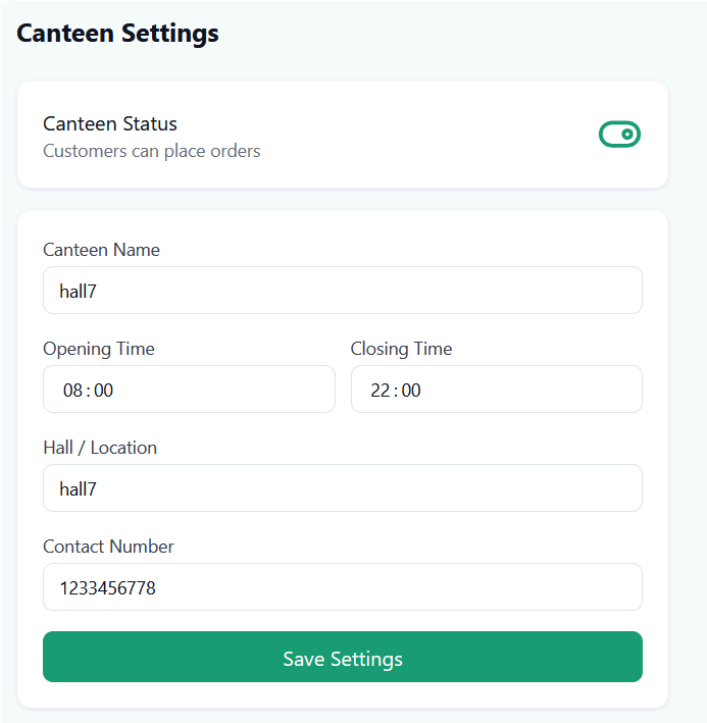
3.6 Merchant Profile & Settings

Click Profile in the sidebar to view and edit your profile and canteen details.

- **Personal Information:** Update your personal name and phone number.
- **Canteen Details:** Update the canteen's name, hall/location, and operating hours.
- **Open / Closed Status:** Toggle the canteen's open/closed status in real time.

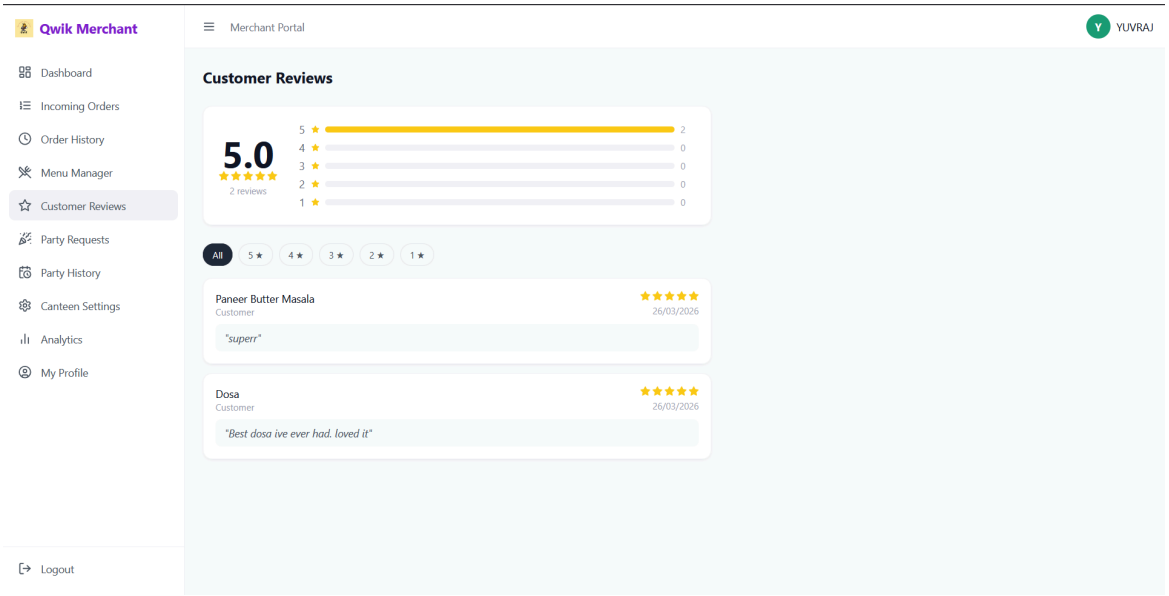
Click Edit Profile to make changes, then Save. To update your password, click Change Password and enter your current password followed by the new one.





3.7 Reviews

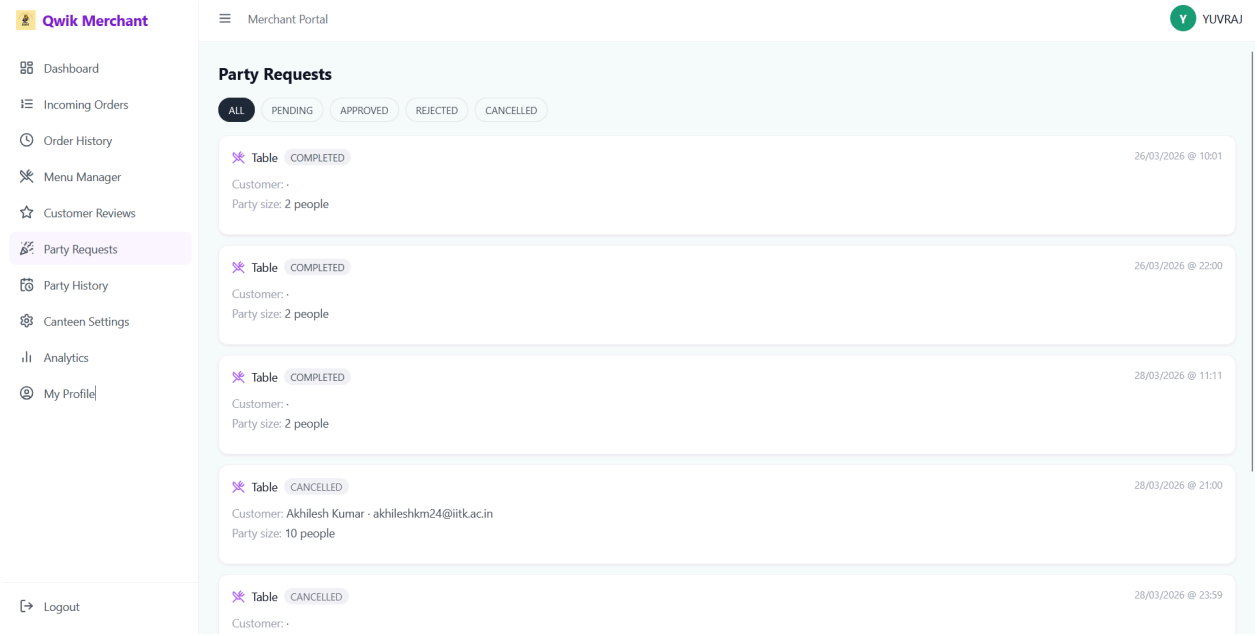
Click Reviews in the sidebar to see customer ratings and comments for your menu items. Each review shows the item name, star rating, written comment, and the date it was submitted. Use this feedback to improve your offerings.



3.8 Party / Reservation Requests

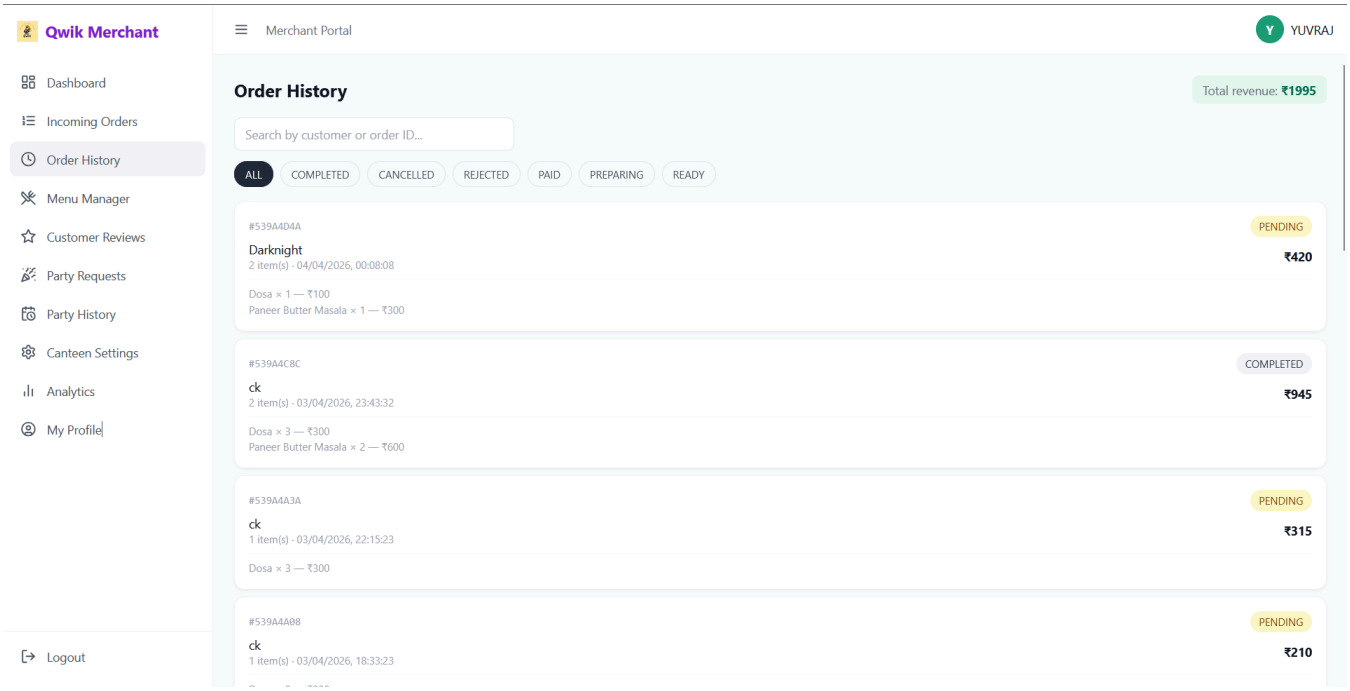
Click Party Requests in the sidebar to manage table reservations and cake pre orders submitted by customers.

- Each request shows the customer name, type (Table Reservation or Cake Pre Order), date, time, party size, and any special notes.
- Click Approve or Reject to respond to each request. Customers are notified automatically.
- Use the filter buttons (ALL, PENDING, APPROVED, REJECTED, CANCELLED) to manage your view.

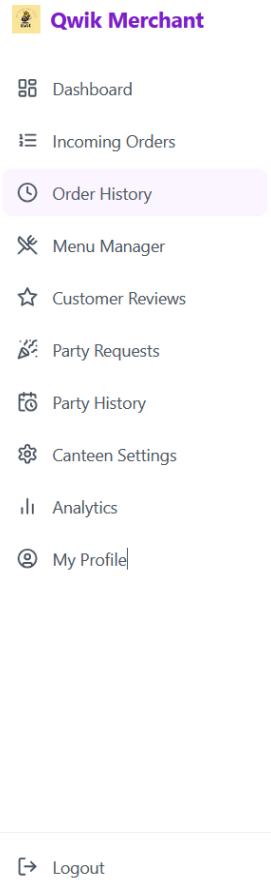


3.9 Order History (Merchant View)

Click Order History in the sidebar to see a full archive of all orders ever placed at your canteen — including completed, cancelled, and rejected ones. Use this for record keeping and analysis.



3.10 Merchant Sidebar Navigation



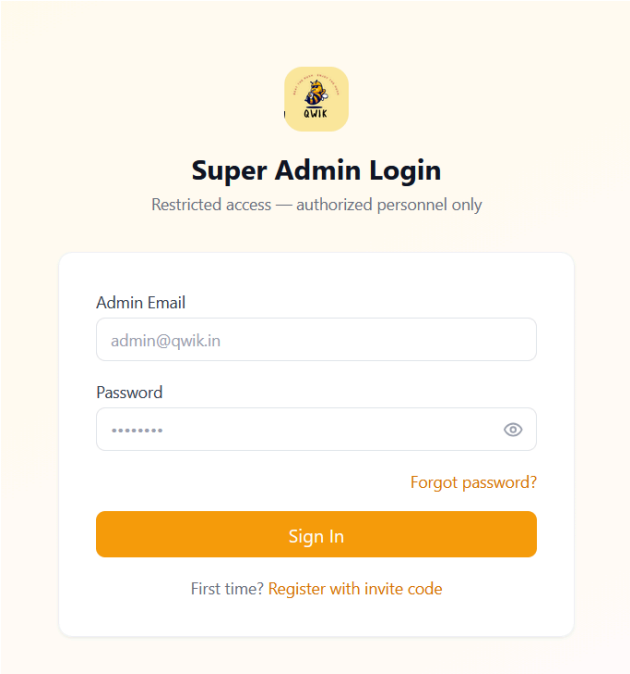
The sidebar provides access to all merchant pages:

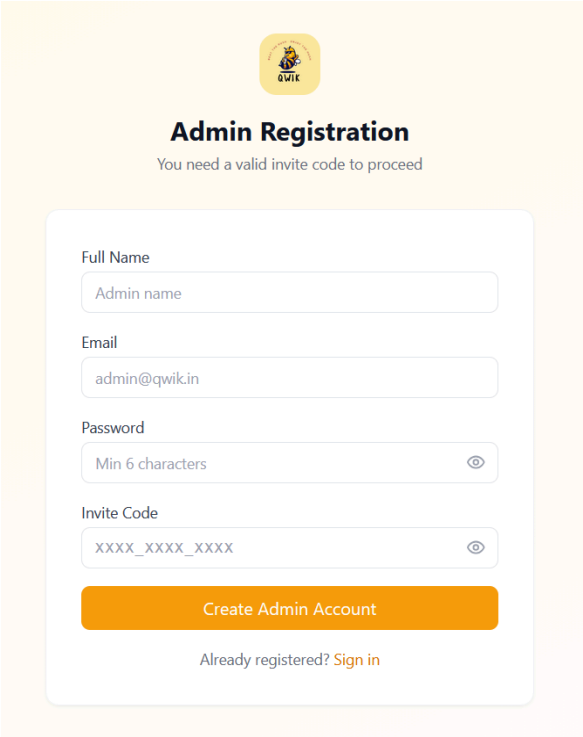
- **Dashboard:** Summary statistics and real time order count for today.
- **Orders:** Live order queue with accept/reject/progress controls.
- **Menu Manager:** Add, edit, delete, and toggle menu items.
- **Profile / Settings:** View your profile and update canteen settings.
- **Reviews:** Browse all customer ratings and comments.
- **Party Requests:** Manage table reservations and cake pre orders.
- **Order History:** Full archive of all processed orders.
- **Log Out:** Ends your current session.

4 Guide for Administrators

4.1 Admin Login

Navigate to /admin/login (a link is also shown at the bottom of the standard login page). Enter your admin credentials. Admin accounts are not created through the public registration flow — they are provisioned by the development team.



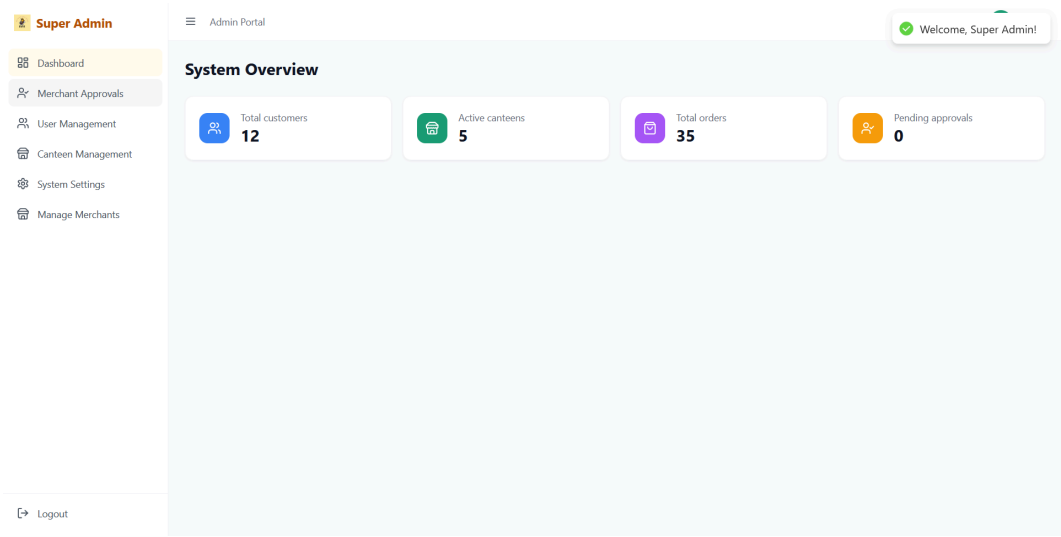


4.2 Admin Dashboard

The admin dashboard shows a high level overview of the entire platform:

- **Total Customers:** Total number of registered customer accounts.
- **Active Canteens:** Number of canteens currently active on the platform.
- **Total Orders:** Cumulative orders placed across all canteens.
- **Pending Approvals:** Number of merchant accounts awaiting canteen approval.

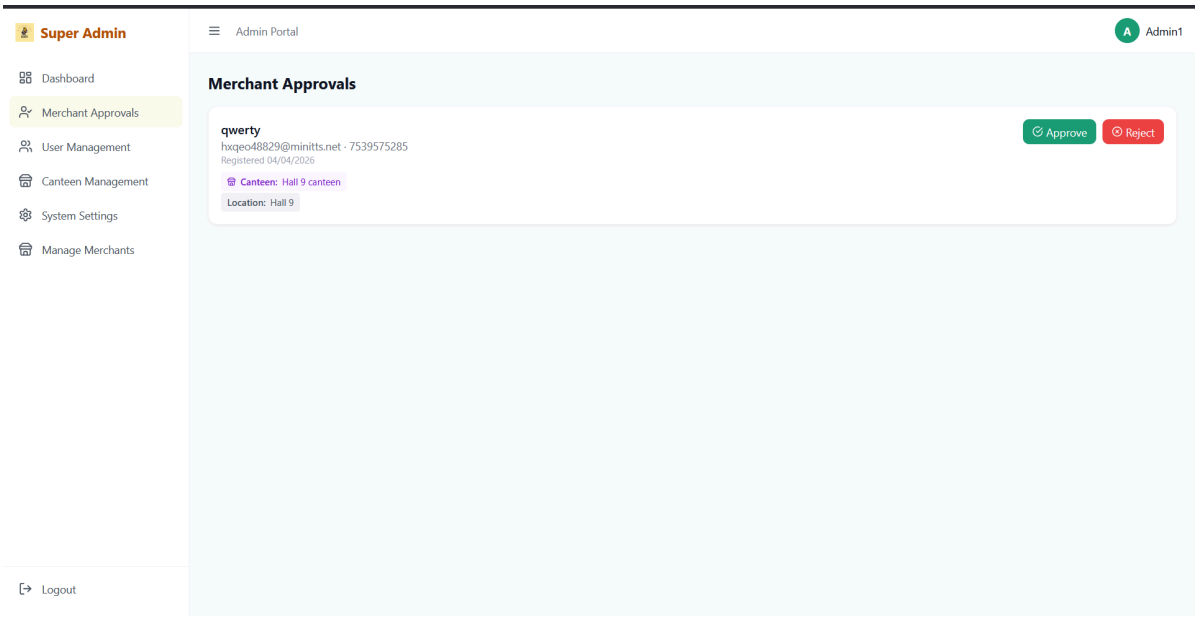
If there are pending merchant applications, a quick view list is shown directly on the dashboard with a Review link for each.



4.3 Merchant Approvals

Click Merchant Approvals in the admin sidebar. This page lists all merchants who have completed email verification but whose canteen request has not yet been approved. For each applicant:

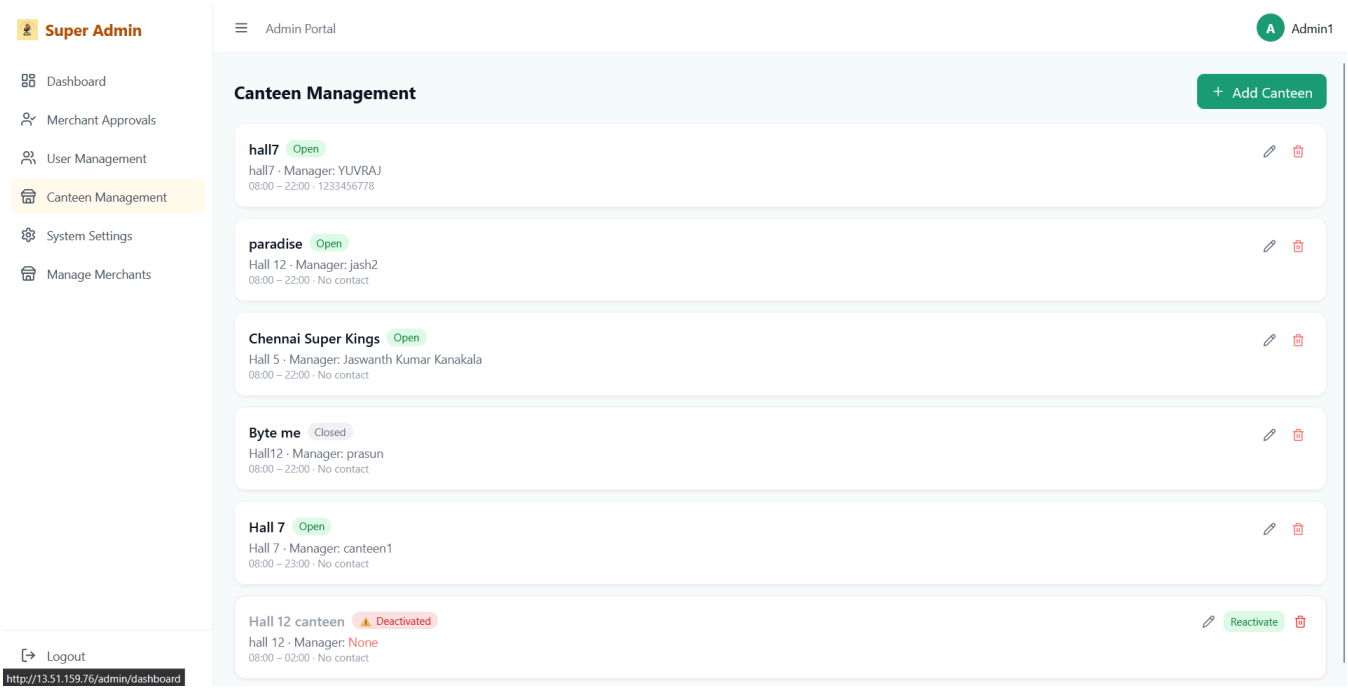
- Review the merchant's name, email, phone, and the canteen they are requesting access to.
- Click Approve to grant them merchant access. They will be notified and can log in immediately.
- Click Reject to deny the request.



4.4 Manage Merchants

Click Manage Merchants to view all approved merchants and their associated canteens. From this page, administrators can:

- View details of each canteen (name, location, hours, open status).
- Block or unblock a merchant account if needed.
- Remove a merchant from the platform.



5 Troubleshooting

5.1 Common Issues and Solutions

Page is not loading or is stuck

This usually happens when your login session has expired (cookies cleared or expired).

1. Log out completely using the Log Out button in the sidebar.
2. Close and reopen your browser.
3. Navigate back to the Qwik URL and log in again.

OTP not received

4. Check your spam/junk folder.
5. Wait at least 60 seconds before requesting another OTP.
6. Make sure the email address and phone number you entered during registration are correct.
7. If the problem persists, contact the platform administrator.

Payment failed or timed out

8. Do not click the Back button or refresh during payment.
9. Check your internet connection and try again.
10. If the amount was deducted but the order was not confirmed, take a screenshot of the Stripe receipt and contact the administrator.

Cannot log in — Pending Admin Approval (Merchants only)

Your email OTP verification was successful, but the platform admin has not yet approved your canteen. This is expected. Please wait and check back in 24–48 hours, or contact the administrator directly.

Cart cleared unexpectedly

Qwik only allows items from a single canteen in the cart at a time. If you added an item from a different canteen after being warned, and confirmed the switch, your previous cart was cleared by design. This is intentional behaviour.

Order stuck in PENDING

If your order has been in PENDING status for more than 15 minutes, the merchant may not have been active. You can contact the canteen directly using the manager contact details shown on the menu page.

Cannot submit a review

Reviews can only be submitted once per order, and only after the order reaches COMPLETED status. If you see a message saying the order has already been rated, it means a review was already submitted for that order.
